In response:

Saturday the max no.s of participants maybe between 10-20. Though depending on rosters of whats on maybe as low as 6-8. Most of the people that come to our classes are families of 3-4 or husband & wife so they travel together. We also have a no. of neighbors that come to our classes so they just walk down. The cars have never been an issue and are always confined to our carpark, I was just stating that they are our busiest times. We have ample car parking space for the amount of people on site.

Wednesday afternoons, I have staggered the class start times to allow for a large no. of cars if needed though this has never been an issue. Most of the parents of the children doing acro participate in classes so the cars are limited already. We are on a large corner block and have ample parking space. Acro classes are all drop off and pick up so that the parents do not stay on site. There is also many siblings in classes. Once again, most of my clientele are families and also neighbors which limits that cars already.

I will add my class no.s for last wednesday afternoon & Saturday morning. We train alot of teenagers at our facility and of course do not have cars.
