# Suicide Prevention Training

**On average, eight deaths by suicide occur in Australia each day.**

Suicide remains the leading cause of death for Australians aged between 15 and 44. Many of these deaths could be prevented, yet most of us remain unaware of the signs that someone is at risk, or how we can respond. Family, friends and the wider community can all make a significant difference in helping people stay safe, seek support and re-establish reasons for living.

**We all need the skills and knowledge to recognize when someone may be at risk and how we can help them stay safe.**

**Time:** 9am-12pm\*

**Date:** Thursday 28 February 2019

\*Attendance at the full session is mandatory

**Location:** Civic Centre, Malvern Ave, Tieri QLD

**RSVP:** by 27 February. Free to attend.

**Please register to** Annette Burton – [aburton@chrc.qld.gov.au](mailto:aburton@chrc.qld.gov.au)
